## Local Happenings

The Agency of the British Northwestern Fire Insurance Company, formerly held by Mr. W. M. Gehrke at this point, has now been secured by H. A. Warner.

Miss A. Martin, having completed her winter vacation, has again resumed her position with the Kennedy Drug Company.

**BORN**—To Mr. and Mrs. Tom W. Smith, of Monitor, on Sunday March 7th, a daughter.

We had a letter from Mr. J. Cook, of Monitor, who is now living at present in St. Paul, Minn. Mr. Cook says he is coming back to Monitor around the first week in April, and looks for a prosperous year. Incidentally Mr. Cook informs us that he, or rather his wife and he won the St. Paul Daily News prize, for the family having the first Leap Year Babe born on the 29th of February. On this date a son was born to bless their home. Congratulations.

**Photographers.** If you are desirous of obtaining the best results from your snapshots, you will do well to give the Wilkie Studio a trial. From personal experience, we can safely say that their work is far superior to the usual class of work turned out. You may either send your films direct to them at Wilkie, or you may avail yourself of the Agency at this office. See their advert in this issue for prices. After you have received your prints compare the prices and the work turned out with what you have been accustomed to. We fear not for the result.

**FOR SALE**—A Cocksbutt, 20 disc drill. In good repair and splendid working condition. For full particulars apply to J. R. Blair.

**Monitor P. O. 11-13, u.p.**  
Lyle Hayes returned to Monitor on Tuesday last from B. C. where he has been for the past two or three months.

Chris Hirsch, Sr., was a visitor in town on Wednesday last.

Rev. W. S. Wickenden went to Consort yesterday. He expects to return to day.

The telephone Linemen have been busy in town for a few days this week, putting in new connections and wires.

Miss Florence Anderson returned to Monitor on Friday last, after an extended visit to friends and relatives in Stettler.

**Lost.** Between the O. K. Livery and Star Restaurant on Monday March 8th at noon, a ladies Red velvet hand bag, containing purse with sum of money. Finder please return to News office and receive reward.

### FOR TRADE

I have a few teams of horses worth from \$25 to \$100 a team. I will trade you a team for 10 acres of wheat delivered at the elevators this fall. You get the team now and deliver the wheat, if there is any, this fall. Even Trade. You Know Me. D. F. Cochran, Kirriemuir 12-14p.

**Superficial Unbelief.**

The Bible teaches the way of salvation, namely, through faith in the Lord Jesus Christ. Many who do not believe are unbelievers because their knowledge of the Bible and the Church is so superficial. Lord Lyttleton and his friend, Gilbert West, both talented men but with a superficial view of Holy Scripture were unbelievers, and both set to work to prove the Bible was an imposture.

Mr. West undertook to disprove "The Resurrection of Christ" and Lord Lyttleton to demolish belief in "The Conversion of St. Paul". The result of their separate attempts was truly extraordinary. Both were converted by their attempts to overthrow the truth of Christianity. When next they met it was to lament their folly, and to congratulate each other on their joint conviction that the Bible is the Word of God. Instead of leading them to continue in unbelief their increased knowledge of the Bible led them to write two valuable books, one entitled "Observations on the Resurrection of Christ".

### STOP! LOOK!! LISTEN!!!

Judging by the remarks one hears from time to time on the street and in the stores, the dance that is to be held in the Big Hall here on the 17th promises to be the biggest affair of its kind ever held in Southern Alberta. It is due to the initiative of the Bachelors of Monitor that the affair has reached the proportions it has, and now, the only dangers that confront them are first of all bad weather, and secondly, the capacity of the hall. As a matter of fact we are sure that if all the people come to the dance that we personally have heard say they are, the hall will not be one-third big enough.

The unique part of the evening's fun is the fact that everything—dance, supper et al, is absolutely free. All the expense in connection with the dance is being borne by the bachelors themselves. All they ask of the remainder of the people is that they come and enjoy themselves. Nobody is going to make anything—no institution is going to receive a rake off—it is just going to be one grand and glorious free-for-all evening of fun and enjoyment. Never mind the clothes part-off. Wear your best or your worst (so long as you wear a smile). No one is going to criticize what you have on. All that is wanted is for everyone to have a time of their lives. A word to the wise is sufficient. Don't forget then, next Wednesday, the 17th of Ireland. You have a date on.

### SPRING

Time is money, and time saved is money made. A few useful suggestions for the spring rush that may save you a trip to town thus losing time and money.

## News Of The World

Conscription will be abolished in Great Britain on March 31 and within a month from that date the last conscript will be entitled to be released, it was announced by the Right Hon. Winston Churchill, Secretary for War, in moving the army estimates in the House of Commons.

Mr. Churchill stated that Great Britain had succeeded in raising and organizing an entirely new volunteer army, which at the time conscription would number about 220,000 excluding troops serving in India.

During a recent snow storm the famous tree named 'El Batial' in the garden of Gethsemane was blown down. According to tradition this tree would fall when the Turkish Empire had fallen. Twice it was bound round with iron braces to prevent it from falling.

A rise in the price of sewing cotton from sevenpence farthing to tenpence a reel is causing much discontent in industrial circles in Britain. It appears that the firm of J and F. Coats, of Paisley, who manufacture 95 percent of sewing cotton for home consumption, pocketed last year, after paying excess profits tax, 16 1/2 percent on their capital.

Rear-Admiral Robert Edwin Peary, retired, Arctic explorer and discoverer of the North Pole, died at his home in Washington recently from periculous anaemia, from which he has suffered for several years.

France has opened her big peace loan, which is to be unlimited in amount. The loan is at five percent with the additional attraction of a fifty percent premium to be given with every bond at maturity.

According to a decision of the Supreme Council recently, the Allies will decline to deal with soviet Russia until they have arrived at the conviction that the Bolshevik horrors have come to an end.

The shareholders of the Grand Trunk Railway in London, after listening to heated criticism, assented to the terms of agreement with the Dominion Government. A dozen dissentients held a meeting afterwards and passed a resolution protesting against the terms.

The 'Daily Mail' says: The Grand Trunk Company took to its deathbed not without a wriggle and protest. Chairman Smithers smoothed the pillow as far as possible, but there is no gainsaying that he felt the attitude of the Canadian Government bitterly. It was significant that the only remark drawing prolonged applause was the suggestion by an outspoken militant clergyman that in future Canadian applications for British capital should be boycotted.

## The Business of Farming

The approach of spring, with the renewal of Nature's activities after the long rest of winter, inevitably leads also to a renewal of man's activities, especially in the lines of productive effort. In some countries climatic conditions permit of year-round agricultural work with a rotation of crops, and such climates also make possible the carrying on of out-of-door work of all kinds. This, however, is not true of Western Canada, where the major activities of both Nature and man are sharply divided by the seasons—a long period of rest and recuperation during the winter, and a time of activity during the late spring, summer and early fall months far surpassing that known in more southerly climates.

And what is true on the farm is true in the cities and towns of the West. In other provinces and countries industrial activity is maintained throughout the winter in factories and shops, but in the less industrially organized West hundreds of workmen who are busily engaged in the summer are largely idle throughout the winter. The carrying on of building operations, road and railway construction, and out-of-door work of all kinds is largely at a standstill for five months of the year.

These are fixed conditions well known to everybody, but people are frequently inclined to overlook their significance in the organization of their business activities, and in dealing with economic problems confronting them. These conditions have a direct bearing on both farm and city labor, on wage demands by the workers, on the purchase and transportation of all kinds of material. If the hired farm worker is engaged for only

six or seven months of the year he must, of necessity, earn sufficient to carry him through his winter months of idleness, or find other employment at a time when work is difficult to secure. The city worker engaged in the building trades must earn and lay by during the months of building activity a reserve fund to support himself and family during the winter when he cannot secure work or can only do so by moving elsewhere at great expense and inconvenience to himself and family.

So, too, in the accumulation of supplies of materials of all kinds. These things, so essential to the doing of a maximum amount of work during the seasons months, can only be assembled during the winter at a heavy cost of interest on money thus invested, insurance, storage, and transportation charges paid out. The net result is, of course, that there is frequently a shortage of supplies in the months when they are wanted, and an inevitable increase in the cost of work done owing to delays in securing requirements, and in the expense of handling rush orders.

These are annually recurring difficulties against which the people of the West have to contend. They probably affect the city employer and employee more directly than they do the farmer, but they react upon him and serve to intensify his problem of how to increase production of foodstuffs, for which the whole world is crying, and yet do so at a cost which will yield him a fair margin of profit on his labor and outlay, and not result in actual loss.

Western Canada farmers are already preparing for active farm operations. A demand for farm help is reported by the Government employment offices throughout the West. Most farmers are anxious to crop every possible acre of land. They want to increase production. But many of them are in a quandary. They are fearful whether the costs of labor, machinery, farm necessities of all kinds, will not more than eat up any profits that may accrue to them from enlarged operations in the work of food production.

A difficulty with which most farmers find themselves confronted is a lack of data upon which to arrive at any conclusion. Unlike the city business man, the average farmer does not keep books. He cannot tell from what phase of his farm operations in past years he made money, or where he lost money. There are leaks in his business, just as there are in every business, but the city merchant has a means of finding them out and stopping them, while the average farmer has provided himself with no means of locating them.

About to start on a new year of activity, the farmer of Western Canada should realize that the day of guesswork in carrying on farm operations is over, just as truly as it passed long ago in connection with other businesses. The farmer must know what it costs to raise a crop, and he must make his buying and selling a business proposition. He should start his 1920 operations with a clear determination to find out exactly where his business stands, if for no other reason than that he will thereby have something to guide him a year hence.

Wise legislation may assist prosperity, but it is not possible to legislate prosperity, and the farmer should, so far as is humanly possible, place himself in a position to know and size up his market, just as the merchant knows what his goods cost him and the price at which he can afford to

sell them. If the farmers of Western Canada could produce facts and figures of their business, as Eastern manufacturers and other business men can, he would be in a position to influence the enactment of much of the remedial legislation he now demands, but which at present he can only support by very general statements.

## PALE, WAN CHEEKS A SIGN OF ANAEMIA

To Have Good Color and Health the Blood Must Be Kept Red  
—And Pure

Many women who had good color and bright eyes in their girlhood grow pale and colorless and lose much of their charm when they become wives and mothers. Why is it? When the fading color in the cheeks and lips is accompanied by a loss of brightness in the eyes and an increasing heaviness in the step and a tendency to tire easily, the cause is to be sought in the state of the blood.

Many causes may contribute to the condition of the blood known as anaemia. Care of the home, overwork, lack of outdoor exercise, insufficient rest and sleep, improper diet, are a few of them. The important thing is to restore the blood, to build it up so that the color will return to the cheeks and lips, brightness to the eyes, and lightness to the step. To do this, nothing can equal Dr. Williams' Pink Pills. They begin at once to increase the red corpuscles in the blood, and this new blood carries strength and health to every part of the body. The appetite improves, digestion becomes perfect, and energy and ambition return. Proof is given in the statement of Mrs. Alex. Archambault, Cornwall, Ont., who says: "Two years ago my health began to fail. I was suffering from headaches, pains in the back and sides, and a constant tired out feeling. I had used a lot of medicine, but instead of it helping me I seemed to be growing weaker. My friends urged me to try Dr. Williams' Pink Pills, and while I felt disheartened by my experience with other medicines, I decided to do so. To my great joy I soon found the pills were helping me, and my continued use for a time fully restored my health. I feel that I would be ungrateful if I did not give my experience with Dr. Williams' Pink Pills, in the hope that it may point the way to health to some other poor sufferer."

Dr. Williams' Pink Pills can be obtained through any medicine dealer, or may be had by mail, post paid, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Smelting Company Plans  
The Consolidated Mining and Smelting company is making rapid strides toward new construction and improvements, which will not only increase the capacity of the big plant at Trail, British Columbia, in many ways, but will add another industry to the list. Present plans call for improvements in the copper refinery plant, estimated at \$250,000; the erection of a rod mill at an expenditure of \$200,000 and the erection of and equipment of a large addition to the machine shop.

## Briqueette Plant Being Installed

Fresh Step in the Development of Lignite Fields in Saskatchewan

Considerable progress is now being made with the instalment of the plant for the making of briquettes at Blen-fair, near Estevan. Tenders are now being called by the Dominion government for the erection of the new buildings at Hudson Bay Mine.

The erection of the plant will be proceeded with as early as possible in the spring for the lignite utilization board. It is the intention of the board to have lignite briquettes on the market by August. The plant will cost in the neighborhood of \$400,000.

The construction of the plant at Hudson Bay Mine is the first step in the development of the lignite fields of Saskatchewan, which, it is stated, will give winter employment to hundreds of people in the province.

## Sending Cotton Back Home Trouble for Everybody

A British firm has returned to the United States 3,000 bales of cotton to avoid the loss which would be sustained when it changed its British for American paper to make the payment.

Nothing more ironical has happened in our economic history, says the New York Globe, which adds: "The rules of the game have begun to play havoc with our social arrangements. Every man for himself means trouble for everybody. Are the exporter in America and the importer in England to fight a silent duel to decide who must move first and take the loss on exchange? If so, we have a last convincing proof that whatever altruism there was in our part in the war has been forgotten, and that we are out to squeeze Europe dry while the continent is helpless."

## British Sewing Machines and Type-writers

One of the British manufacturing developments delayed by the war was the production of a new type of sewing machine. Already, however, large numbers of these British-designed and British-built machines are on the market. A still more notable development is the mass production of typewriting machines by more than one British firm. It is expected that the appearance of this supply will have a very marked effect on markets for these machines in all parts of the world.

### CANADIAN MILITIA.

#### First Step Taken In Complete Reorganization.

The first step in the reorganization of the Canadian active militia is taken in the publication of an order laying down the general lines which will be followed in bringing the new force into being. The order is not concerned with details and gives no indication of the policy to be pursued in the naming units, but it provides for the disbandment of every militia unit in Canada—a complete cleaning of the slate—and the immediate creation of the new force. "The rank and file being automatically discharged," says the order, "the commanding officer has a clear field for re-organization in suitable ranks, and vacancies for new men of overseas experience, not former members of the unit."

"For some time past, a committee, of which Maj.-Gen. Sir W. D. Otter was chairman and Maj.-Gen. W. G. Owatkin, Maj.-Gen. Sir Edward Morrison and Brig.-Gen. A. G. L. MacNaughton were members, have been considering the question of reorganization. They have visited all the military districts of Canada, and it is understood that they have made recommendations with regard to the working-out of the plan outlined in the order which was recently passed in Militia Council."

It provides that a commanding officer, preferably with overseas service, will be selected, after due consultation with the old officers of each regiment, both overseas and militia, to command the new unit. The new commanding officer will prepare a new slate of officers with due regard to war service, previous military service, and qualifications, and will forward to headquarters recommendations for all officers on the strength not included in the new cadre. On receipt and approval of the above a general order will be issued disbanding the regiment as of a certain date for the purpose of reorganization. "This disbandment," says the statement, "will clear the situation, render free action possible in making new appointments and adjusting seniority, and will force decisions in the case of all officers on present strength who are not receiving appointments to the reorganized units by transfer to another unit, appointment to the reserve, or to the reserve of officers. Canadian militia, as otherwise they automatically cease to be officers of the active militia."

In spite of the disbanding of the units, however, there need be no fear of loss of continuity of service. This is provided for by immediate reappointment and enlistments, and the order provides that "new service rolls will be opened as of date of reorganization, proper attention forms being insisted on. A new general order will immediately be issued setting all officers in the new unit, and all officers on the old strength not reappointed will be disposed of either by transfer to the corps reserve of the unit, transfer to the reserve of officers of Canadian militia, or by retirement."

The question of rank is dealt with in the new order, the ruling being that officers appointed to the active list will be recommended for such rank as they may be appointed to in accordance with the establishment of the unit. Those with C.E.F. service, however, will be recommended for a brevet equal to their rank in the C.E.F. reserve. They will, if recommended, be considered qualified by war service for the next highest rank to any rank held by them in the C.E.F. for a period of six months.

The reorganization will, it is stated at militia headquarters, be proceeded with by arms and an order applicable to the artillery will be issued shortly, to be followed by the cavalry and infantry a little later on. Each arm as ready will be dealt with along the general lines indicated above.

#### Wanted—An Island.

"Wanted to rent or purchase, a small island in any part of the world," was an advertisement which appeared recently in a Liverpool paper. The advertiser, Mr. E. K. Kelly, was not thinking exclusively of the housing problem when he advertised, he told a correspondent.

He and his wife, both young, decided that the best way of escape from town life was to live upon an island of their own, preferably in the Pacific or in an equally pleasant climate. Mr. Kelly has been seafaring for seven years, and now finds it impossible to settle down in Liverpool.

"I remember reading many years ago a magazine account of a man who bought an island in the South Pacific for somewhere about \$500," he said. "It was the hope of a similar bargain that induced me to advertise. I have had five replies. An island in one of the Great Lakes was offered me and another near the southern coast of North America. Others of the west coast of England were mentioned. As, however, nothing quite suitable has been offered we are going out to Canada instead."

### STONELAW U. F. A. CONCERT IS BIG SUCCESS

In spite of the severe weather an entertainment of exceptional merit was put on by the Stonelaw U. F. A. at the Minor school last Friday. The programme commenced by the audience singing "Organize, oh organize" and a parody on the tariff question. Dan Nelson ably assisted by L. P. Dickason and W. Sinclair performed in his inimitable manner, causing much amusement.

Among the other entertainers were Mrs. M. Anderson, Mrs. and Miss Evans, and also Messrs Dorien, C. Blackleg, C. Deadmarsh, W. and C. Menzies O. Johnson, A. Evans and A. Deadmarsh; all of whom performed in a very creditable manner. The accompaniments on the piano by Mrs. E. Wrich was of an exceptional order and contributed largely to the success of the performers. The star events of the evening were the speeches of Messrs. Dorien and Muir. Mr. Dorien is a speaker of the first water. Confining himself to the Political activities of the U. F. A. he wished to impress upon his hearers the necessity of remembering that the United Farmer's Political Platform was not created to serve the farmers only but included the citizenry of the whole of Canada which he hoped would be the forerunner of that broader and nobler democracy which this and all the countries of the world need and he confidently expected that in the securing of this higher form of government we would see the United Farmers of Canada in the lead.

Mr. Muir proved himself to be one of the coming men in the U. F. A. organization.

His calm deliberate and logical manner of speaking on the various activities and needs of the U. F. A. created a very favorable impression on his audience. In closing his address he wished to urgently impress on them the necessity of every farmer joining the U. F. A. not only for his own good but that of his children and the coming generation and hoped that every member would bend his efforts to secure more members so that we could reach our aim of 50,000 U. F. A. members for the year 1920.

At the close of the performance a vote thanks was tendered to the performers, also to the speakers for their excellent addresses.

## GOVERNMENT GLYDE STALLION

Parties wishing to breed mares to the Clydesdale stallion purchased by the Alberta Department of Agriculture "Craigie Masterpiece" 1897, during the season of 1920, will make application to S. G. Carlyle, Live Stock Commissioner, Department of Agriculture, Edmonton, giving name and registration number of mares; A fee of \$25 will be payable at time of service, and a further fee to be fixed by the Clydesdale Committee and the Live Stock Commissioner, will be payable when mare proves to be in foal.

The location of the horse in the province will also be decided by this committee, and arrangements will be made that the service fees in every case will cover the freight so as to equalize cost to parties residing in different parts of the province. Further particulars will be published shortly, but parties desiring to breed mares should make application at once. The stallion will likely be ready to begin the season about May 1st. The Committee and Live Stock Commissioner reserve the right to revise the list of applications and make such rules and regulations as may be deemed necessary regarding the services of this stallion.

S. G. CARLYLE  
Live Stock Commissioner.

## Favorable Crop Conditions Expected

### Snow in Central and Southern Alberta Will Result in Plenty of Moisture

Already this winter more snow has fallen in Edmonton and surrounding district than in any winter for the past twenty years, according to the local meteorological advice records, which show that 64.5 inches of snow already have fallen this season. The heavy snowfalls have been general all over Alberta, from the southern boundary as far north as official records are kept.

One of the expected results of the record snowfalls is that farmers all over the province are looking forward to a record-breaking season in crops.

In Southern Alberta the snowfall had reached 39.6 inches up to February 15th. Another heavy fall since that date has further improved matters, and it is expected that the 50-inch mark for the season will be reached. This is fifteen inches more than the average for this part of the country. The last fall of snow was 7.3 inches, bringing the total for the winter up to 46.9. This is already nearly as much as in the record year of 1914-1915, when 49.5 inches were recorded. It will be remembered that it was in the season following this heavy snowfall that the record crop in Alberta was harvested.

"With fifty inches of snow, says the Lethbridge Herald, "much of which has been taken off by gentle chinooks which allowed it to soak into the ground, the spring moisture will be the greatest of any year since the spring of 1916, and farmers are banking on a crop this year which will at least pay good money even should adverse weather during the growing season keep it from being a bumper."

## Gen. Currie as a Soldier

### Pen Sketch of Canadian Chief in War Correspondent's Book

Phillip Gibbs, the noted war correspondent, in a book entitled "Realities of the War," just published, describes General Currie, officer commanding the Canadian army in Flanders during the great war, as follows:

"He cut clean to the heart of things ruthlessly, like a surgeon, and, as I watched that man, immense in bulk, with heavy, thoughtful face, stern eyes that softened a little when he smiled, I thought of him as Oliver Cromwell. This real estate agent, as he was before he took to soldiering, is undoubtedly a man of strong ability, free from those trammels of red tape and tradition which swathed around so many of our own leaders."

## British Columbia's Talc Deposits

### Fairly Extensive Deposits of Talc Occur on Vancouver Island

A number of fairly extensive deposits of talc occur on Vancouver Island, and on the British Columbia mainland along the line of the Pacific Great Eastern Railway. Though so far as can be judged none of these deposits contain as fine a variety of talc as is found in the French and Italian deposits, most of it will serve for many of the several purposes for which the mineral is used.

In 1918 Canada produced over 18,000 tons of talc, the crude product selling at \$3.50 to \$5.00 per ton and the ground product at an average price of \$14 per ton. The crude talc was shipped to the United States, while the ground product was sold principally in Canada, a small amount going to Cuba. Practically the whole output came from mines and quarries in the vicinity of Madoc, Hastings County, Ontario, which is the centre of the Canadian talc industry.

Talc is employed extensively as a filler in the manufacture of paper, and with the growing wood-pulp industry in this province there should be a growing demand for talc. A large quantity of the mineral is used in the rubber industry, and the fine-grained mineral when absolutely free from grit is used for face-powder, cosmetics, and in the making of certain soaps.

Talc is employed in dressing skins and leather, for foundry facings, for sizing and bleaching cotton cloth, in the manufacture of paints and wall-papers, for insulating electric wires, as a base for the absorption of nitro-glycerine in making dynamite, as a body for medicines used in tablet form, as a preventative against chafing of pneumatic tubes in automobile tires, and for many other purposes.

In fact, it is doubtful whether any other mineral finds so many applications in the arts and industries. When occurring in massive form, talc is sawn into slabs and is used for sanitary and electric appliances, and for sinks and for the linings of fireplaces and stoves. The high-grade foreign varieties are used by tailors for marking cloth.

The talc production of the world is placed at about 300,000 tons, most of which is poor grade. Chlorite, quartz, dolomite, pyrite, magnetite, and such impurities reduce the value of the mineral, quartz being particularly undesirable. Forty-seven tons of high-grade French talc that was imported into the United States last year brought \$36 per ton.

## Alberta Air Service

### Boasts of the Best Commercial Air Service on the Continent

An elaborate freight and passenger air service is being planned in Alberta by the Edmonton Aircraft Company. Beginning with two machines capable of carrying four passengers and 1,000 pounds of freight and express, they propose making two trips daily between Calgary and Edmonton, and between Edmonton and the Peace River country. The Calgary and Edmonton fare will be \$40, and the journey will be accomplished in two hours. The Edmonton to Peace River trip, which will occupy about three hours, will cost \$60.

There is also an aircraft company in Calgary which proposes to work along similar lines. An effort is now being made to merge two companies, or at least to have an arrangement whereby overlapping will be avoided, and a common aerodrome could be used. These negotiations are still pending, and if they are completed Alberta will be able to boast of the best commercial air service on the continent.

**B. C. Berry Growers Expect Big Year**  
British Columbia berry growers are anticipating a good season during 1920 both in production and financial returns. The growers of the Gordon Head district are reported to have made contracts to deliver to the jam factories 250 tons of strawberries at 20 cents a pound. Buyers have been going through the lower Mainland and Vancouver Island surveying the situation and making offers to the various large producers for the contemplated harvest.

## Growing Flower Seeds On Vancouver Island

### Orders Received From Seed Houses In England and Ireland

Crosland Brothers, growers of sweet pea seeds for half a dozen of the leading seed houses of England and Ireland, have their ground at Duncan, British Columbia, in shape for sowing which will begin at once. Contracts have been received, and seed for growing have been sent out by the British firms of the very newest and most rare varieties. The Crosland's will put in six acres of this seed and have sublet contracts to seven or eight local growers, who will put in about four acres more. The quality of the Vancouver Island seed is so good that an unlimited number of contracts could be received by responsible growers.

## Canada's Place in the Empire

Canada is the foremost of the family of the British Empire, and, being nearest, the great responsibility rests upon her, not alone to aid and succor in battle, but to lead the van in all forms of industrial life; to seize every opportunity to forward the grandeur and stability of both herself and the Empire.—Agricultural Gazette.

## CALOMEL!

It's Mercury! Quick-silver! Shocks the Liver—Danger!

You're bilious, but take "Cascarets!" You have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched, your bowels are constipated. No wonder you feel foggy, mean and ill-tempered. You need Cascarets tonight. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and bowels are ended by morning with gentle, harmless Cascarets—they work while you sleep, never gripe, shock, sicken or inconvenience you. They're grand!

## Proof that Some Women do Avoid Operations

Mrs. Etta Dorion, of Ogdensburg, Wis., says:

"I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles have entirely cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."

## How Mrs. Boyd Avoided an Operation.

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well."

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. # More Proposals For Settlement Of Irish Question

Montreal.—The Montreal Star publishes the following from a staff correspondent in Dublin:

"While Ulster is anxiously waiting the arrival of Sir Edward Carson to decide its policy regarding the latest Home Rule Bill, the remainder of Ireland is holding back to hear the proposals of Sir Horace Plunkett, who has lately returned from the United States.

"Sir Horace, since his arrival in London, has maintained absolute silence, but it is announced that the alternative demand to the present bill will be presented to a great representative meeting to be held in Dublin.

"On the highest authority, I am able to forecast that Sir Horace Plunkett's policy would bring Ireland into a whirlpool of international affairs. First, it includes the previous demand for full Dominion status, claiming the right of the various countries to decide their relations to the central constituent assembly by a proportional representation vote. Then the committee of the League of Nations would examine the claims of all parties to co-operate with the assembly in the formulation of a political constitution.

"I understand that Sir Horace has the firm promise of the United States to withdraw the reservations to the covenant of the League of Nations, which affects Dominion votes in the League of Nations, and also to assent to enter the League of Nations, if Ireland is granted representation of a Dominion status.

"It is also stated that the United States would undertake to consider adjustment of the exchange situation if Ireland's problem is settled on the Dominion basis.

"Meanwhile, every effort is being made here to bring together all the parties to agree to Plunkett's proposal and this effort is not without success.

## Want to Run Own School

Mennonites Would Do So In Accordance With Manitoba Public School Act

Winnipeg.—Requesting that the trusteeship of one of the Mennonite schools be returned to them, and stating that it was their intention and desire to conduct the school, if given control, in accordance with the Manitoba Public School Act, a delegation, composed of four Mennonites, waited upon the provincial government. The school for which they ask the trusteeship had been run as a private school, and was taken over by the government in 1918 to ensure compliance with the act, and it has since been operating in a satisfactory way.

## Charges Against Five Meat Packers in U. S.

J. H. Montgomery Declares They Lowered Livestock Prices

Washington.—The big five meat packers were charged in testimony given before the house agriculture committee by J. H. Montgomery, of Basin, Wyoming, with having livestock prices reduced and driven growers out of business.

Mr. Montgomery described himself as just an ordinary stock grower. He deplored injunctions and "immunity baths" in proceedings against the packers.

The packers thrive on injunctions, he said. "An injunction does not bother them any more than insect powder does a cootie. The whole packing industry should be put through a de-lousing station."

Mr. Montgomery charged the packers with efforts to influence stock growers and prevent their protesting against legislation for their control.

## She Feels She Owes Her Life to Them

WHAT MISS EAGLE SAYS OF DODD'S KIDNEY PILLS

Ormsby lady who suffered from Diabetes for five years tells of the benefit she received from Dodd's Kidney Pills.

Ormsby Ont., March 8.—(Special.) "I feel I owe my life to Dodd's Kidney Pills." This strong statement comes from the lips of Miss Gertrude Eagle, a well-known and highly respected resident of this place. And Miss Eagle gives her reasons for speaking out in terms that none can fail to understand.

"I have been suffering from Diabetes for five years," she states. "I tried the doctors, but they could do nothing for me."

"A friend told me of Dodd's Kidney Pills and of their great value. I tried one box and they helped me. I have now taken three boxes and they have done me so much good I feel I owe my life to them."

## Destroy Turk Navy

Turkish Warships Will Be Broken Up According to Pact

London.—The disposition of the Turkish navy was definitely settled by the allied supreme council when it decided that the peace treaty should provide that the warships be broken up. The Turkish army will be reduced to such a point by the peace terms that it would not be effective against another country.

The council deliberated over the report of Marshal Foch on the military situation as regards Turkey, but it did not determine on the question of details of the military terms of the treaty.

## Gives Himself Up After Six Years

Wearry of Globe Trotting, Winnipeg Man Surrenders on Manslaughter Charge

Ottawa.—Conscience stricken and weary of his wanderings all over the face of the globe, Henry William Elkhorn, wanted at Winnipeg on a charge of manslaughter, walked into the police station and surrendered himself.

The crime with which Elkhorn charges himself is that on one night in June, 1914, he stole an automobile in which he went joy-riding with a friend named George Graff. While travelling at a fast clip the automobile upset and Graff was badly injured in the head. Realizing his friend was in extremis, and fearful for the results of his escapade, he made the injured man comfortable by the roadside and then fled from Winnipeg. Graff died a few days later, and Elkhorn, changing his name to Arthur James Ford, hearing a warrant was out for his arrest, tried to enlist, but was rejected as medically unfit. He later secured a job as a stoker on an ocean-going ship, and in it quattered the globe. Tired of his seafaring life, he returned to Canada, made his way to Toronto, where he was recognized and narrowly escaped capture. From there he went to Hamilton, and was again in danger of arrest. Finally, a few days ago, after staking himself to meagre living by spasmodic employment, he came to Ottawa, and finding himself unable to get work of any kind, he acted upon a letter he received from his mother advising him to surrender to the authorities.

Elkhorn will be held in jail, pending receipt of information from the Winnipeg authorities.

## Urges Uniform Divorce Law

Ontario Bar Association's President Wants Federal House to Take Action

Toronto.—"Uniformity" of Canadian laws of divorce was urged by President N. B. Gash in his address to the Ontario Bar Association, which opened its fourteenth annual meeting at Osgoode Hall. He said:

"The judicial systems of the civilized countries throughout the world are too varied and conflicting to permit any dream of international and uniform system of divorce laws, but it is high time that Canada began to put her house in order for this purpose. Parliament should bring down a general law superseding all the preceding laws on the subject, and conferring to courts constituted for the purpose, the disposition of such cases. Only in this way shall we put an end for all time to the uncertainty, confusion and conflict of laws that have been cropping up and are bound to increase as time goes by."

Ottawa.—Sir George Foster tabled in the house the correspondence between himself and Judge Robson, covering the latter's resignation as chairman of the Board of Commerce.

Judge Robson states simply that he finds it impossible to remove his home to Ottawa, and his presence is required in Winnipeg. The acting premier in his acknowledgement accepts Judge Robson's resignation with regret.

On the same day as he resigned, February 23, Judge Robson wrote a long letter to the acting premier, giving his views on the operation of the Board of Commerce, suggesting that a federal machine to inquire into costs and profits of commodities, and to act in an advisory capacity to provincial boards, would be more useful, than the board as constituted at present, the matter of dealing with profiteers being better left, the judge thinks, to the provincial authorities.

He stated that the act actually removes the last chance the consumer had to do anything for himself in reducing the cost of living, and was also designed to stand off co-operative movements which were likely to make progress for the benefit of the consumers.

His experience on the board, he declared, led him to the views which make it improper for him to continue on it, and he further stated that he is out of sympathy with the act.

Up and down the railway platform scurried the nervous old lady, evidently searching in vain for some one. Then she tackled a porter.

"What time does the last train go?" she demanded anxiously.

"Nine-fifteen, ma'am," replied the porter.

For another five minutes she rushed, looking wildly round. Then she met the porter again.

"What time did you say?" she asked.

"Nine-fifteen," said the porter a trifle curtly.

The lady stood wringing her hands by the entrance, her eyes searching the darkness wildly, vainly, for her luggage. Then, for the third time, she sought the porter.

"I say, my good man," she wailed. "I've got a tin chest, and you said—"

The porter cast courtest aside like a worn-out garment.

"I don't care if you have a brass neck," he yelled. "The last train goes at nine-fifteen!"

A Revelation

"These modern French fashions," said Lady Duff-Gordon, "reveals many beauties, but they also reveal many defects."

"A young schoolmarm, dressed in a skirt of the brevity that fashion prescribes, was explaining to a class of boys the adverb 'slowly.'"

"To make her explanation clear, the schoolmarm walked slowly across the platform. Then she smiled, and said to a freckled youngster:

"Now, Tommy Ferguson, how did I walk?"

"Knock-kneed, mam," piped little Tommy."

If you are going to raise calves without Milk, use your own intelligence in selecting the product you are going to buy. Our Royal Purple Calf Meal contains about 10 1/2% Fat, and fat costs in any market, nearly three times as much as Protein; but that is not the question that should be uppermost in your mind in purchasing a substitute for milk. We tell you without fear of contradiction, that you cannot make a substitute for milk with less than 10% Fat, and if you use over 20% Protein the meat is hard for the calf to digest.

SAVES WORK

The speed you get from a Fordson helps you through the heavy spring season.

You get through seeding quicker. You work the ground better and oftener. You kill the weeds before they get a start and save work later on.

Then when you're through with a Fordson, you're through. It's not like a team that makes chores for you night and morning.

If your work is crowding you, come in and see how a Fordson will help you out.

**MARCH WEATHER DANGEROUS TO BABY**  
Our Canadian March weather—one day bright, but sloppy the next blustery and cold—is extremely hard on children. Conditions make it necessary for the mothers to keep the little one indoors. They are often confined to overheated, badly ventilated rooms and catch colds which rack their whole system. To guard against these colds and to keep the baby well till the better, brighter days come along, a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. The Tablets are a mild but thorough laxative which never fail to regulate the stomach and bowels and thus they relieve colds and simple fevers and keep the baby fit. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

**Big Percheron Sale in Britain**  
High Prices Secured at Messrs. Tattersall's, Knightsbridge  
At Messrs. Tattersall's, Knightsbridge, England, on Monday, a number of Percheron mares and stallions were offered, and met with a good trade. The first lot on offer were specially selected, and imported by Messrs. Hy. Overman and J. L. Wickham-Boynston. The highest price was paid by Lord Minto for that splendid grey mare Quadrille, foaled in 1916, which he secured for 500 guineas. Mr. G. M. Gibbs went to 480 guineas for the grey mare Oie, which it will be remembered was second at the Royal Cardiff Show, 1919. At 440 guineas Lord Minto secured Neronde, a grey mare by Jack, the property of Messrs. H. and J. Drage. By private sale, Mrs. Emmett secured Negation, a seven-year-old grey mare, due to foal at the end of February, at £400. She is by Gogel and out of Jeterello. This mare has already done very well at the French shows in 1919. The same lady also acquired Menais, another seven-year-old, by Javelot, at £450. This mare possesses the right blood, and should do well at English shows. Other chief prices and purchases were:—

Binding of the German Copy is of Solid Black  
Fifteen copies of the treaty of Versailles, one for each of the allies and associated nations that affixed signatures to the ratification of the document, have been distributed in handsome bindings by the supreme council of the League of Nations. On the binding of each copy, excepting only that of Germany, is a device or coat of arms. The binding of the German copy is solid black, without a mark of any kind to relieve its appearance of gloom. The most ornate of the volumes is that of Italy. The device on that of Czechoslovakia, the infant among nations, consists of three plain letters and is the simplest of any volume, with the exception of Germany's.

**BAR U AND NAMAKA FARM PERCHERONS**  
The largest stud of the Pure-bred Percherons in the World. The first Percheron-breeding Farm Established in Canada. The only firm on the American continent from which British horsemen have selected Percheron breeding stock to establish studs in Britain.  
Do not let the British breeders come to Canada and carry off all our best foundation stock. Do not be satisfied with the cheap coll stallions brought in by irresponsible dealers and stallion peddlars from the United States, when you can buy the best individuals of the best breeding raised right here in Alberta by men that have been in the breeding business for 15 years, and expect to remain in the business. We have seventy-four head of Pure-bred Percheron Stallions of our own breeding now on the farm. You can see their sires and dams, and if you cannot choose one from the lot to suit you we will give you every assistance in our power. Write for prices or come to Calgary, Alberta, and we will meet you and show you the stock at any time.—Address:  
**GEORGE LANE, CALGARY, ALBERTA**

**FARMERS BREED PERCHERONS**  
The only breed of draft horses ever shipped back to England from Canada for breeding purposes were Percherons. The greatest breed of draft horses in North America are Percherons. The safest investment in draft horses today is Percherons. A profit to own—A pleasure to handle. You will make no mistake in your horse breeding this year if you use a Percheron sire.

**Western Canada Is Expecting New Settlers**  
Large Exodus Is Coming From the Other Side of The Line  
An unprecedented number of farmers from the United States are intending to settle in Western Canada during the present year. One of the chief factors that is responsible for the large exodus from the other side of the line is the present exchange rate. It may not be generally known that American farmers, by availing themselves of the present rate of exchange, can save at least the first twelve months' expenses on their land. This has been the primary factor in inducing many of these settlers to make up their minds right away, hence the prospective record business. One man in Montana a short time ago, in order to be sure of reaping the benefit of the exchange rate, forwarded \$6,000 to a friend here for investment in Canadian bonds.

**Keep Fit For Success In Life**  
BY DR. A. B. BARCOCK.  
You can take your boy and out of him make anything you like if you can get him under good self-discipline. All roads are open to the man who is strong and fit. Uncle Sam took "our boys"—those slabsided, stooped, hollow-chested youths—and made of them vigorous, well-developed, well set-up and courageous men. Take the right way! Train yourself and your children to take proper exercise, drink plenty of water and keep the system clean. Your doctor will tell you that anything from a common cold or headache to the most serious illness may result from the absorption of poisons in the intestines.  
The first principle is to keep the system clean. Occasionally see that the boy or girl, as well as yourself, has an internal bath. It may be with castor oil or a tiny pill of May-apple, aloin and jalap, which is sold by druggists as Dr. Pierce's Pleasant Pellets.  
If a cold starts with a cough and it persists, then some local treatment for this condition should be taken. A well-known alternative extract which has been on the market for a great many years, and which has been highly recommended by thousands of users, is Dr. Pierce's Golden Medical Discovery. This tonic compound is composed of an extract of roots and herbs, without alcohol, and has a soothing effect upon the mucous membrane, allays the irritation and at the same time works in the proper and reasonable way, at the seat of the trouble—the stagnated or poisoned blood.
